PROFESSIONAL SUMMARY

Results-driven QA Engineer with 4 years of experience delivering quality across complex web and mobile applications in automotive and B2B SaaS domains. Expertise in testing AI-assisted applications, including RAG pipelines, embeddings, and similarity search validation. Proven track record as a sole QA on international products, owning the full testing cycle from design to sign-off. Adept at identifying critical defects early and driving 60 product improvements.

SKILLS & TECHNOLOGIES

- **Manual Testing:**
Web, Mobile (iOS/Android), Regression, Smoke, Exploratory, E2E, UAT, Sanity, Functional
- **API Testing:**
Postman, Swagger, Insomnia, Burp Suite — REST
- **Test Documentation:**
Test Cases, Checklists, Bug Reports, Sign-off Reports, Test Plans
- **Tools:**
Jira, Azure DevOps, TestRail, Burp Suite, JMeter, Chrome DevTools, Git, Android Studio, LetsView, Vysor
- **Databases:**
SQL (queries, joins); NoSQL: Cosmos DB; Snowflake (data warehouse)
- **Scripting:**
Python (script reading/writing with AI assistance, pytest basics); familiar with CI/CD pipelines
- **Methodologies:**
Agile/Scrum, ISTQB standards, risk-based testing

WORK EXPERIENCE

Test Engineer (On-Call) | [Part-time / Startup Projects](#)

Sep 2025 – Present

- Part-time QA support for startup projects; manual and API testing, test documentation.

Test Engineer | [Sigma Software \(2,000+ employees, global IT services\)](#)

Sep 2021 – Apr 2025

- Gained hands-on experience across the following projects:
 - Automotive warranty management system for Lynk & Co auto brand
 - PMTool — enterprise project management tool for running projects and tracking KPIs
 - Dance movement analytics MVP (iOS & Android) — UI testing and video upload validation (short-term)
 - Digital advertising analytics dashboard (B2B SaaS) — data processing and UI testing (short-term)
 - WordPress corporate website — functional and content testing (short-term)
- Analyzed, refined, and clarified requirements in collaboration with product and development teams.
- Estimated testing effort and timelines for assigned tasks and features.
- Performed various types of testing depending on project needs and risk areas.
- Established and tracked quality metrics, providing stakeholders with visibility into product quality and release readiness.
- Proposed and documented 60 product improvements adopted by the product team, reducing support tickets.
- Authored comprehensive test documentation: test cases, checklists, bug reports, and release sign-off reports.
- Collaborated daily with developers, designers, and PMs in Agile/Scrum environment; presented QA demos to internal stakeholders.

EDUCATION

Master's in Information-Measurement Technologies (specialization: Quality Assurance) | [Kharkiv National University of Radioelectronics](#)

2022 – 2024

- Relevant coursework: Software Testing Theory, ISTQB Standards, Database Systems, Project Management.
